## Foreword

We are now entering on our third year in our business. And glad to say, we feel better than ever, able to serve our customers. We also want to thank each and every one for their patronage and assure you we are going to try harder than ever to give you service.

Our **PLANTS** consist mainly of three kinds, house, bedding and vegetable plants.

Our **BULBS** listed in this catalog consist of what are known as Spring Bulbs or the kind to be planted in the spring for flowering all summer.

Our **SHRUBS** consist of rose bushes and all flowering shrubs used for home decoration. We try to have every plant, bulb or shrub that leaves our Greenhouses in the best possible growing condition. And I am sure if you give us a trial you will be convinced this is true. We give special care to mail orders and guarantee satisfaction.

Yours Respectfully,  
**F. B. BOBBITT.**

## Our Planting Service

We feel that this is a great need with many people, especially business men and others who have nice modern houses, but need them planted right to be homes. That is, the right things at the right time. A doctor studies the different parts of the human body, and knows just what to do in case of sickness. Think what the florist has to know about the thousands of different kinds of flowers and how to make sick gardens look beautiful. We furnish the plants and do the planting reasonable and give advice without charge.
